

## Sparsholt PC Minutes 18 September 2014 Annex L Playground

The weekly checks are now being carried out by Charlotte Chadwick.

We have to do a risk assessment for the insurers which will be undertaken next year at the same time as the annual inspection and by the same person.

There are two action points – the painting of the fencing and equipment woodwork and repair to the goalmouth which require me to obtain 2 further quotations for the work and this is currently in hand. I am finding it hard to find anyone interested in quoting for the painting.

The PC playground reserves are insufficient to cover the likely costs so we will need to raise additional funds, hopefully, through a grant from Phil Bailey. However as the goalmouth is on land belonging to WCC and is not strictly speaking the PC's responsibility I am also planning to seek a contribution from WCC.
